

Dockets Management Branch (HFA-305)
Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Obviously, this appeal is late. I am not sure of the status of this FDA proposal.

Please do not participate in restricting the availability of individually compounded medications. My quality of life depends on compounded natural hormones. My hormone levels are naturally VERY LOW! Standard pharmaceutical medications make me extremely ill. This first occurred in 1971 and not one of my gynecologists since that time have ^{prescribed} found a standard formulation that did not produce extreme unpleasant side effects with no positive effects. I beg you to heed this appeal. c 2120

All women are individuals
and only a small percentage are a "perfect size 10."
